WIRELESS INFRASTRUCTURE LINE LIST South Texas, Arkansas, Louisiana

Concealed & Standard Poles, RF Optimized Concealments, shrouds, mounts for Small Cell/C-RAN, 4G/5G deployments. PIM/Interference mitigation solutions that include PIM optimized hardware, & Test/Measurement tools.

Specialty/Custom antennas, combiners, duplexers, filters for Carriers, Land Mobile Radio, Public Safety, Utility, Contractor & Amateur Radio customers.

Fiber solutions including CPRI interface panels, bulk fiber cable, connectors, and custom optical cables for telecom applications. Fiber enclosures, trays, splicers, Test & Measurement tools & cleaning kits/accessories.

High performance Small Cell/C-RAN Directional antenna solutions that include multi port/band, cannisters, mini cannisters, whips, mini panel and strand mount antennas for 4G/5G network densification deployments.

Fiber, power & hybrid cabling for Macro, & Small Cell/C-RAN 4G/5G projects. Fronthaul, fiber capacity solutions & passive optical components: multiplexers, couplers, splitters, switches, adapters, & attenuators. RF connectors, jumpers, lightning protection, antennas, components, & RF/GPS over Fiber solutions.

4G/5G RF conditioning solutions that include Interference Filters, Combiners (dual band, multi band, same band), Tower Mounted Amplifiers, & AISG/RET Cables. Test/Measurement solutions include portable and bench PIM analyzers, interference hunting solutions and RF cable/antenna analyzers.

WIRELESS INFRASTRUCTURE LINE LIST South Texas, Arkansas, Louisiana

4G/5G RF Lens, multi beam, patented antenna technology that offers ultra high-performance, ultra high-capacity, high-throughput antenna solutions for macros, venues, stadiums & arenas.

High-performance, high efficiency, feature-rich Macro antenna solutions for 4G/5G operators & OEM's that make networks more reliable. Complete multi port/band, wind load optimized macro antenna solutions with superior reliability.

4G and 5G, High-performance Test & Measurement solutions for mobile network Benchmarking, Optimization, Service Quality Monitoring, Interference Hunting, Data Management, and Analysis and Reporting.

Highly secure keyless armored padlocks & keyless lock controllers, managed by a cloud-based platform with unlimited scalability. Easy to deploy and use, purpose-built for critical infrastructure access management and protection.

High performance 5G mmWave and C-Band network signal boosters for outdoor and indoor coverage applications
