RF/MILITARY/AEROSPACE LINE LIST

Dielectric Laboratories (DLI) & Integrated Microwave Corp (IMC) solutions. High-Frequency Single Layer Capacitors (SLC), Build-to-Print Thin Film & other Microwave Components: Miniature Microstrip Filters, Ceramic Filters, Waveguide Filters, etc.

RF Solutions ranging from board level, connectorized components and IMA's to full subsystems in microwave & mmWave bands. Custom-built solutions leveraging capabilities and engineering from design-to spec to build-to-print applications utilizing both chip and wire and SMT technology with domestic manufacturing for the Mil-Aero, Space, & SATCOM markets.

FLORIDA ONLY

RFMD's & TriQuint's semi-conductor and foundry technologies for RF solutions for mobile, infrastructure, defense and space applications.

Highly secure keyless armored padlocks & keyless lock controllers, managed by a cloud-based platform with unlimited scalability, easy to deploy and use, purpose-built for critical infrastructure.

Rugged high-speed optical transceiver modules and parallel embedded optics products for aerospace, defense, avionics, telecom, and data centers.

Relays, including Electromechanical, Solid-State, Space, Industrial, RF Microwave, Coax Switches, & Switched Matrices.

Hi-Rel Custom Interconnects including High Voltage Connectors, High Voltage Hermetic Connectors & Cable Assemblies, High Voltage Wire & Cable and High Energy Devices (capacitors and spark gaps).

Power & lightning protection for AC, DC, high speed data, signal, power protection cabinets, EMP | EMI filters, power conditioners, UPS and power distribution units.
